School Development Project 2025–2028

Axis 1: Well-being and School Climate

General Objective: Promote a school climate conducive to learning by developing a culture of well-being, cooperation, and prevention.

Facilitate the integration of students and families

Actions:

- Welcome parents at the start of the school year (welcome coffee, presentation by students)

- Distribution of an informational brochure about the school

- Adaptation period for kindergarten students

Evaluation:

- Participation rate in welcome events

- Satisfaction surveys from families and students

- Attendance and retention indicators

Enhance school spaces as educational tools

Actions:

- Playful and educational playground arrangements

- Creation of differentiated zones according to needs

- Collective reflection on sanitation (hygiene, safety)

Evaluation:

- Student perception surveys on school spaces

- Reduction in incidents during recess

Develop a health and prevention policy

Actions:

- Health and hygiene actions (medical visits, handwashing)

- Education on emotional life and puberty awareness

- Sports week

- Reducing waste

Evaluation:

- Number of initiatives per year

- Knowledge assessment through questionnaires

- Participation rate in health campaigns

Prevent and combat bullying

Actions:

- Awareness day and peer tutoring

- Classroom lessons on bullying

- Display and distribution of prevention tools

Evaluation:

- School climate surveys

- Number of reported incidents

- Participation in trainings

Strengthen school democracy

Actions:

- Strengthening student representation bodies

- Student council

Evaluation:

- Number of meetings and decisions

- Student involvement

- Student-led projects

Axis 2: Well-being of Students and Staff

General Objective: Develop an inclusive and caring school environment ensuring physical and psychological well-being.

Ensure quality welcome for students and families

Actions:

- Welcome coffee and presentation

- School brochure

- Adaptation period for kindergarten

Evaluation:

- Participation rate

- Satisfaction surveys

- Number of joint events

Improve school infrastructure

Actions:

- Redesign playgrounds

- Supervised recreational activities

- Sanitation audit

Evaluation:

- User feedback

- Reduction in risky behavior

Develop structured health pathway

Actions:

- Health program by cycle

- Mandatory medical visits

- Nutrition and anti-waste programs

- Emotional and sexual education

Evaluation:

- Completion rate

- Learning assessments

- Food waste tracking

Axis 3: Multilingualism and Cultural Openness

General Objective: Encourage openness to the world and language mastery.

Promote host country and intercultural dialogue

Actions:

- Zambian day

- Partnership with local school

- Participation in ISAZ competitions

Evaluation:

- Participation rate

- Student work quality

- Cultural exchanges

Strengthen French language and Francophonie

Actions:

- Language events

- Francophonie week

Evaluation:

- Participation

- Quality of work

- Family feedback

Develop international section

Actions:

- Cambridge, DELF, DALF certifications

- Reinforced language pathway

Evaluation:

- Enrollment and success rates

- Retention rates

Axis 4: Sustainable Development and Citizenship

General Objective: Build eco-citizenship awareness.

Promote local resources and partnerships

Actions:

- Partnership with Cornerstone of Hope

- Visits to rural schools

Evaluation:

- Number and quality of partnerships

- Feedback

Educate for sustainable citizenship

Actions:

- Workshops with NGOs

- Circular economy awareness

- Eco-delegate charter

- Green school projects

Evaluation:

- EDD indicators

- Participation rate

- Measurable impact
